Career Objective:

Perspective engineer looking to work with an organization where my skills serve the needs of the organization as well as my professional appetite, consequently enhancing an environment of mutual growth.

Skills:

- **Programming Languages:** C, Python, java.
- **Skills:** Data Structures and Algorithms (DSA).
- **DB Language:** SQL.
- **Web Technologies:** HTML, CSS, bootstrap, Javascript.
- **Tools:** Visual Studio Code, Anaconda Navigator, Android Studio.

Internships:

Software Developer Intern:

Dv Soft - Guntur

November 2024 - Present

- **Project:** Developed a responsive website for Midtown Drug Center, a pharmaceutical client.
- **Technologies Used:** HTML, CSS, JavaScript, Bootstrap
- **Responsibilities:**
 - Collaborated with design and content teams to create a modern, user-friendly interface tailored for the pharmaceutical industry.
 - Utilized HTML, CSS, JavaScript, and Bootstrap to build a fully responsive website.

Freelancer Developer:

- **Overview:** Developed basic, static, and responsive websites and apps for clients, focusing on beginner-level projects to enhance online presence and functionality.
- **Technologies Used:** HTML, CSS, JavaScript, Bootstrap, Firebase.
- **Responsibilities:**
 - Designed and built static, responsive websites and simple web applications tailored to client requirements.
 - Utilized Firebase for hosting, database management, and authentication to create interactive features where needed

Projects:

ResQpath:

- **Technologies:** Java, Firebase, Android Studio
- Developed an Android application using Java and Firebase tailored for solo travelers.
- Implemented key offline features including offline maps, an offline chatbot, and an emergency SOS.

Build Track – Construction Progress Monitoring System:

Technologies: Python, OpenCV, Flask, HTML, CSS, JavaScript

Developed a basic construction monitoring system that tracks site progress using image analysis and detects helmet usage for safety compliance.

Implemented simple anomaly detection features to flag unusual activity or data mismatches during monitoring.

Included a budget tracking module to estimate and compare project costs.

Achievements & Certifications:

- **Solved 150+ Problems in LeetCode:** Achieved a significant milestone in solving problems on LeetCode.
- **Hackthon :**Runner up in mobile app development and introduction to internet of things and robotics conducted by kkr & ksr institute of technology and sciences
- **Java Full Stack Development Certification – Wipro |** October 2024

Education:

- B. Tech in Computer Science & Artificial Intelligence | KKR & KSR Institute of Technology and Sciences, Guntur with 8.61 CGPA
- Completed XII (State board) from NRI Jr. College, Guntur with 95 percentage (2021)
- Completed X (State board) from Neo Vision High School, Guntur with 10.0 CGPA (2019)

Responsibilities:

- Serving as a Technical Head for our department of Artificial Intelligence, I lead over 350 students to up-skill their technical abilities through various activities and events.
- Conducting dynamic upskilling sessions, empowering our junior students with essential coding skills and insights into the latest technologies as a passionate educator and mentor.

Academic projects:

- Developed a prototype of a fruit-cutting robot using an Arduino Uno and various sensors, demonstrating practical robotics skills.

Personal Details:

- **Name:** Komatigunta Sai Manikanta
- **Date of Birth:** 24 August 2002
- **Father's Name:** Komatigunta Ramesh
- **Strengths:** Adaptive, Self-learning and Self-motivated

Declaration:

I hereby declare that all the information mentioned above is true and correct to the best of my knowledge.

Place: Guntur
